On February 6, 2017, registration opened for all class members to register to receive benefits from the settlement. **All retired NFL players must register by August 7, 2017, to receive any benefits at all.** The settlement will provide eligible retired players with:

- The **Baseline Assessment Program**, which provides baseline neuropsychological and neurological examinations for eligible Retired NFL Football Players and additional medical testing, counseling and/or treatment if they are diagnosed with moderate cognitive impairment during their baseline examinations (every qualified Retired NFL Football Player will be eligible to receive one BAP baseline assessment examination during the term of the program);
- **Monetary Awards** for diagnoses of ALS, Parkinson's Disease, Alzheimer's Disease, Level 2 Neurocognitive Impairment (i.e., moderate Dementia) and Level 1.5 Neurocognitive Impairment (i.e., early Dementia), and certain diagnoses of Death with CTE for a Retired NFL Football Player who died before April 22, 2015 (the Final Approval Date) (see Injury Definitions). All valid claims under the Settlement will be paid in full throughout the 65-year life of the Settlement; and
- **Education programs** promoting safety and injury prevention with respect to football players, including safety-related initiatives in youth football, the education of Retired NFL Football Players regarding the NFL's medical and disability programs and other educational programs and initiatives.
