NFL CONCUSSION SETTLEMENT

IN RE: NATIONAL FOOTBALL LEAGUE PLAYERS' CONCUSSION INJURY LITIGATION
No. 2:12-md-02323 (E.D. Pa.)

EXPLANATION:

This table shows the starting point for calculating the Monetary Award for a Retired NFL Football Player (or his Representative Claimant) based on this Qualifying Diagnosis and age at the time of that Qualifying Diagnosis. An actual Monetary Award may be lower than the base amount shown in the table because:

(1) Retired NFL Football Players with fewer than five Eligible Seasons receive a reduction between 10% and 97.5%, depending on their actual number of Eligible Seasons;

(2) Certain Retired NFL Football Players with a medically diagnosed Stroke occurring before the Qualifying Diagnosis receive a reduction of 75%;

(3) Certain Retired NFL Football Players with a medically diagnosed Traumatic Brain Injury occurring before the Qualifying Diagnosis receive a reduction of 75%;

(4) Certain Retired NFL Football Players who do not participate in the Baseline Assessment Program receive a reduction of 10%;

(5) Eligible Derivative Claimants collectively receive 1% of the Monetary Award;

(6) Valid Liens will be paid out of the Monetary Award; and

(7) The Court has ordered that 1% of each Monetary Award be set aside to facilitate the Settlement program and related efforts of Class Counsel.

(See Sections 6.7(a)-(e), 11.3(c)-(h), and 21.1 of the Amended Settlement Agreement)

Under Section 6.9 of the Settlement Agreement, in January of each year the Special Masters may direct an inflation adjustment to the Monetary Award amounts, not to exceed 2.5%, based on consideration of the Consumer Price Index for Urban Consumers. The amounts shown in this Grid reflect the 2.5% upward adjustment directed by the Special Masters starting on January 13, 2026.
